• Fixed	29.87
Lifecycle Fund	3.56

A complete listing of rates is available at www.cuinc.ca.

Weekly Compost Collection Resumes in May

Over the winter months, organic waste doesn't break down as quickly. As the weather warms in the spring, organic waste will begin turning into compost much faster. CUI will resume weekly collection of your green bin the first week of May.

Sorry, we cannot accept large branches or tree stumps in the green bins. If you've got surplus organic waste (leaves, dirt, small branches, etc.) from your yard clean-up, bring it to the recycle depot.

Glass Now Accepted at the Recycle Depot

Due to high customer demand, CUI has recently added a glass collection container at the recycle depot. As you may know, we are unable to accept glass in your blue cart so this provides our customers with an alternative for disposal.

Please ensure ALL glass jars and bottles are rinsed clean, labels and lids are removed. If the glass is contaminated with food, liquid or other residue, the entire load of glass material will be rejected for recycling by the City of Calgary.

CUI's Annual General Meeting

Customers and stakeholders are invited to attend the AGM April 26, 7:00 p.m. at Lakeside Greens Golf Club. You'll have an opportunity to meet the staff and board members, and hear from the CEO about the operational and financial performance of CUI in 2015.
